Rep. Wilson Issues Statement on President's Veto of CHIP

Washington, D.C. – In response to President Bush's recent veto of the Children's Health Insurance Program (CHIP) Reauthorization Act Congressman Charlie Wilson (OH-6) issued the following statement:

"At a time when the number of uninsured children is increasing, we need to be doing more to make sure that they have access to quality care. Congress' agreement would give 10 million children health care. It's a plan that Democrats and Republicans in the Congress widely support. The President's veto is a veto against children and a veto against one of Americans' top priorities: insuring our children's health. Everyone deserves quality healthcare in this country."
